

# Adhese 2.0.27

## New Features

- Added a new report to Datamine: General revenue report. See [Datamine > General](#) for more info.
- Created the possibility to send an automated email when an [Option](#) is about to expire.

## Improvements

- Optimised the hourly publish cycle
- Small cosmetic changes in the search box
- Added clicks to the [Video report per campaign](#)
- Ratecard related actions are now listed in the user logs

## Issues

- Fixed a bug where a search for locations of one publication was not possible
- Fixed a bug where the template editor added extraneous characters
- Fixed the 'days of the week - all day of the week' bug when editing multiple bookings
- Fixed a bug where a user could not add a tariff less than 1

## Hotfolder

Multiple fixes and improvements: see [Hotfolder](#)

- xxx-LINK.txt files are optional for 3rd party tags
- Files are only removed when validation succeeds
- Extra files are not processed sequentially
